## Professional Profile

---

Determined Frontend Web Developer with hands-on experience in JavaScript. Skilled in delivering high-quality projects for both large- and small-scale applications. I'm passionate about writing clean, maintainable code and enjoy working and collaborating in team environments.

My problem-solving skills come from managing large-scale business operations and a deep interest in how software works. Before moving into development, I built internal tools with Excel and VBA to solve real-world problems across multiple fast-paced restaurant locations.

**Primary stack:** JavaScript, React, Node.js, NoSQL(MongoDB), SQL(MySQL)

## Work History

---

12/2020 – present

### Career Break

- Moved to Germany
- Enrolled at Arbeitskreis für Aus- und Weiterbildung, Language and German Integration school
- Enrolled at Berufsförderungswerk Schömburg: Reha-Vorbereitung Course
- Berufsförderungswerk Schömburg Ausbildung: Fachinformatiker für Anwendungsentwicklung (IHK), including a 5 month internship

03/2024 – 08/2024

### Intern – Software Development

**BRC Solar** - brc-solar.de | Ettlingen (In-house, Remote)

A German based company that makes power optimizers for solar panel systems.

**Tech stack:** C, C++, Python, SQL, React, Django

- Developed an end-of-line production system in Python, automating quality control for embedded devices and increasing production by 35%.
- Built and deployed a full-stack web app on an internal server to display real-time Power Optimizer and Gateway data, boosting error/success detection by 80%
- Created internal Python tools to support the software team, accelerating debugging and system validation workflows by 65%.

08/2018 – 12/2020

### Business Partner - Director of Operations

**TTRB Holdings LLC** - [Bluffton SC, Beaufort SC, USA]

A franchise management company that owned and operated multiple Little Caesar Pizza locations from Florida to South Carolina. The company specializes in quick service restaurant operations.

- Managed day-to-day operations across multiple high-volume locations, ensuring consistent execution and smooth workflows
- Oversaw hiring, training, and team development, fostering a positive work environment
- Adapted quickly to shifting priorities, staffing shortages, and unexpected challenges

06/2012 – 08/2018

### Lead Area Supervisor – Southeast Ga

**Coastal Pizza LLC** - [Southeast Ga, USA]

A franchise management company, that owned and operated stores in southeast Georgia, USA

- Built an Excel system for 13 restaurants to track profits, labor costs, and auto-generate reports
- Built an Excel-based scheduling planner used by managers to streamline weekly team schedules
- Created a smart Excel tool to streamline inventory orders for 13 locations based on usage patterns

## Education

---

02/2023 – 01/2025

Ausbildung: Fachinformatiker für Anwendungsentwicklung  
Berufsförderungswerk Schömburg  
Schömburg, Germany  
2.2 Grade Point Average

## Additional Skills & Interests

---

### Languages

- English (Native Speaker), German (B2-C1)

### Interests

- Designed and developed ArcanaTable, a virtual tabletop platform for pen-and-paper RPGs, using React, Node.js, and MongoDB to stay connected and game remotely with friends and family in the U.S.
- Designed and built an interactive math game with PyGame to help my 6-year old learn counting and number recognition in both English and German
- Designed and developed a custom flashcard app in Python
